# CALL FOR PAPERS

Since its inception in Hong Kong in 1998, the Asian Digital Library Conference has become an important forum for researchers, educators, and practitioners to share their experiences and innovative developments. This year the ICADL Conference Series returns to Seoul Korea with Yonsei University as the host. The 2015 Asian Digital Library Conference will explore digital libraries as a broad foundation for interaction with information and information management in a digital world. We particularly welcome work relating to the conference theme of *providing high-quality digital information*, regardless of whether it is raw data streams, numeric, audio-visual, mapping, 3D content, text, social media, compound publications or the metadata that describes the resource and its provenance.

## Topics Include (but are not limited to)

- Annotation
- Augmented Reality
- Cloud-based Content Management
- Cognitive Computing
- Crisis Informatics
- Cultural Heritage and Digital Humanities
- Data Analytics, Citation, Curation, Integration and Management

## Technical Papers

Technical papers may include contributions to research, system evaluation, infrastructure and architecture, case studies, and social and institutional policy.

### FULL PAPERS (due July 19)
Full papers report significant original results. Maximum 10 pages.

### SHORT PAPERS (due July 19)
Short papers describe modest but complete results. Maximum 4 pages.

### POSTERS (due Sept 21)
Present innovative projects and projects with early but interesting results. Maximum 2 pages.

All papers must be original contributions and not previously published nor currently under consideration for publication elsewhere. Papers must be written in English. Submissions should be made through EasyChair (see conference web site for link). Accepted technical papers will be published in the conference proceedings as part of Springer Verlag's Lecture Notes in Computer Science (LNCS) series.

## Workshops

Workshops bringing together groups of researchers interested in advanced topics are especially encouraged. Contact **workshops@icadl2015.org**

### CiSAP (Consortium of Information Schools Asia-Pacific) (Dec 12)
The CiSAP workshop 2015 focus on research activities in information schools. We welcome both CiSAP members and non-CiSAP members; researchers and students in information schools and related schools and anyone who are interested in information school activities.

### NKOS (Networked Knowledge Organization Systems) (Dec 9)
The focus of the workshop will be on the principles and applications of KOS such as classification systems, thesauri, lexical databases, value lists, taxonomies, and ontologies. Workshop participants are expected to share their experience on various stages of KOS development and demonstrate practical KOS applications in real-world environments.

### Doctoral Consortium
Doctoral Consortium provides advice and support for doctoral students about their dissertation research. Contact **doctoral@icadl2015.org**
